James Palanio, Chair Board of Education School District No. 67 (Okanagan Skaha) Email: jpalanio@sd67.bc.ca

Dear Mr. Palanio:

Thank you for your letter of March 1, 2021, regarding 2021/22 COVID funding and for your leadership throughout this past year, which has been stressful and challenging for all.

As you mention, the Ministry of Education has made available almost \$288 million to the K-12 sector through the Provincial Safe Return to School Grant and the federal government's Safe Return to Class fund to ensure the safe delivery of education since the pandemic began.

The Ministry announced the 2021/22 School Year Estimated Operating Grants, which includes an approximate 4.3 percent increase to most funding rates. In addition, the Ministry also just released the update to the current School Year operating grants which has provided an additional \$20.6 million to school districts due to updated funding claims as well as \$5.9 million to address learning loss due to the pandemic.

Last month, I was also happy to announce that the Ministry will be providing an additional \$25.6 million in new one-time, pandemic-specific funding to support necessary cleaning and disinfecting, hand hygiene for students and staff, improve ventilation and restock supplies of personal protection equipment (PPE).

We will continue to follow the expert advice of the Provincial Health Officer, as we monitor the pandemic and the positive impact the BC vaccine rollout will have on all of us returning to more normal operations.

Again, thank you for writing.

Sincerely,

Jennifer Whiteside

To: All Board of Education Chairs

I am pleased to announce the launch of the 2021 Premier's Awards for Excellence in Education, effective today. Following the cancellation of the 2020 Awards due to the COVID-19 global pandemic, government is once again proud to have an opportunity to recognize the enormous contributions of British Columbia's exceptional teachers, administrators and support staff that are vital to the cultural, economic and social well-being of the province. The Awards recognize all outstanding education professionals who have made exceptional contributions to benefit their school, students and their communities.

The Awards are open to all education professionals within the BC K-12 public, independent and First Nations school systems. This year, Awards will be given in the following categories:

- Community Engagement
- District Leadership
- Extracurricular Leadership
- Indigenous Education
- Outstanding New Teacher
- Outstanding Support (School Community)
- Outstanding Support (Teaching Assistant)
- Outstanding Team Collaboration
- School Leadership
- Social Equity and Diversity

Nominations are now open and are welcomed from all BC citizens, including students, parents, teachers, administrators, trustees and community organizations. The deadline for nominations is January 7, 2022.

Additional information on the Awards, including a downloadable poster, can be found on the Premier's Awards for Excellence in Education website at www.gov.bc.ca/excellenceineducation.

Dear Stephanie Higginson:

Thank you for your letter, regarding the motions put forth at your recent British Columbia School Trustee Association (BCSTA) Annual General Meeting. I apologize for the delayed response.

I sincerely appreciate you taking the time to bring to my attention the priorities of the BCSTA and its commitment to British Columbia's boards of education and the students they serve.

AEST works closely at the provincial level with key partners to support the development and delivery of programs that both respond to student needs and meet community labour market demands. In light of post-secondary programming switching to online formats in response to the COVID-19 pandemic, and considering the needs of rural and remote communities, I anticipate that teacher training, in particular online teacher training, will be an important topic of discussion among education partners in the coming months.

As you may know, public post-secondary institutions must also meet any regulatory requirements for specific occupations, including for educational assistants, early childhood educators, and technology education teachers. The early childhood education (ECE) Registry with the Ministry of Children and Family Development has regulatory authority to approve ECE post-secondary training programs and establish minimum educational requirements, including curriculum and course content. Similarly, the Ministry of Education's British Columbia Teachers' Council holds the authority to approve British Columbia's teacher education programs and establish minimum educational requirements, including approved delivery methods and course content.

.../2

Although the Ministry of Advanced Education and Skills Training (AEST) provides operating funding for public post-secondary institutions in British Columbia, under the *University Act* and the *College and Institute Act*, institutions are responsible for the management of their institution, including matters related to faculty, program priorities, academic programs, and course delivery options. Consequently, Government does not intervene in these matters.

The Province is committed to continual work with educational partners to ensure educational assistant, early childhood educator, and trades/technology teacher training programs meet regional labour market and individual learner needs.

Thank you again for writing to me.

Sincerely,

Honourable Anne Kang

Email: zjovic@bcsta.org

Dear Stephanie Higginson:

I am writing in response to your May 25, 2021 letter, regarding a motion (A202139) passed at the BCTSA Annual General Meeting which requests a review of the current fines and penalties for School Bus Red-Light Runners, and also advocates support for province-wide education and awareness campaigns consistent with our Vision Zero targets. I have reviewed the resolution and appreciate the opportunity to respond.

One of the provincial government's primary objectives is to promote a high level of safety for all road users on British Columbia's roads and highways, including vulnerable road users such as children. BC has various deterrents in place to ensure that drivers understand the severity of dangerous driving behaviors. This includes educational programs as well as monetary penalties that are aimed at improving public safety in British Columbia.

Section 149 of the British Columbia *Motor Vehicle Act* states that drivers must stop before reaching a school bus whose signals indicate it is stopped to receive or discharge school children. Failure to stop can result in a \$368 fine and three penalty points upon conviction. While there are no immediate plans to increase these penalties, there can also be additional consequences for high-risk driving behavior including vehicle impoundments and lengthy driving prohibitions. Road safety is a shared responsibility that involves collaboration and engagement with many road safety partners, and the application of these penalties relies on police enforcement of this provision.

On top of penalties, creating awareness and changing driver behaviors are key factors in keeping our roads safe. We employ several intervention-based programs aimed at improving public safety, including the Driver Improvement Program (DIP), which identifies and intervenes with high-risk drivers and encourages them to improve their driving habits.

With respect to our Vision Zero target, you may be interested to note the recent release of the BC Road Safety Strategy 2025 (https://www2.gov.bc.ca/gov/content/transportation/driving-and-cycling/roadsafetybc/strategy). The Strategy is rooted in the vision of realizing zero fatalities and serious injuries on BC roads, and is based on three pillars:

- Working Together for The Future of Road Safety;
- Tools to Make Our Roads Safer; and
- Inspiring British Columbians To Make Safe Road Choices.

The Strategy outlines the tools, initiatives, awareness campaigns and enforcement programs that are creating a road safety network in BC. It focuses on a continued decrease in road-related fatalities and serious injuries, supporting a vision of working together to reduce those deaths and injuries by 50 per cent by 2030 (as per Canada's commitment, and BC's adoption of the 2020 Stockholm Declaration road safety targets:

https://www.roadsafetysweden.com/contentassets/b37f0951c837443eb9661668d5be439e/stockholm-declaration-english.pdf)

Our government is serious about addressing high-risk driving. In BC, we are fortunate to have an active and passionate road safety sector dedicated to the vision of reducing road traffic deaths and injuries, and we are always watching what is happening in other jurisdictions as we consider new and better ways to save lives and reduce crashes.

Thank you for writing and for your interest in making our roads safer.

Dear Community Partner:

I am pleased to share that work to introduce race-based data legislation in British Columbia is well-underway.

Race-based data collection is about better identifying where gaps and barriers exist for Indigenous and racialized communities when accessing public services like health, education, and policing. Anti-racism data legislation can help address inequity and lead to better services for all.

As organizations, service providers, and community leaders who work to support those living with disabilities, I wanted to notify you of this important opportunity. We know that for those who are both racialized and living with disabilities, that the intersection between these identity factors can create overlapping barriers. Identifying these unique barriers is critical as we work to understand and address the often-double discrimination communities face.

Opportunities for public engagement on the data legislation began in September and will continue through November 2021.

Participants will have a chance to share their vision for how data collection could be implemented in ways that build trust and are effective in addressing systemic racism. Building on recommendations made by BC's Office of the Human Rights Commissioner in its report entitled, *Disaggregated demographic data collection in British Columbia: The grandmother perspective*, the online engagement will allow us to better understand the key issues, concerns, and hopes that British Columbians have about anti-racism data collection—as well as the intersections between disability and racialized communities. This will enable us to create legislation that works for everyone.

At the same time, the Province launched an opportunity for Indigenous and racialized communities to lead their own engagement sessions on the data legislation, which may take place in October and November 2021. Grants of between \$500 and \$30,000 are available for organizations to hold sessions in their communities with support from engagement specialists.

Applications to receive government funding to host sessions are being solicited from September 9 until October 15, 2021, or until funds are fully allocated. Information about how to apply is available at https://engage.gov.bc.ca/antiracism.

Feedback from both of these engagement opportunities will inform government on how we can collect, use, and share data in ways that reflect the needs and experiences of Indigenous and racialized communities—creating a more equitable and inclusive province for all.

This work to develop new anti-racism data legislation is a critical part of government's efforts to build and maintain an inclusive province for all and complements the *Accessible B.C. Act* which aims to identify, remove, and prevent barriers to the full and equal participation of people with disabilities in British Columbia.

Please share this information widely and reach out to me if you need further details about this important initiative.

Sincerely,

Dan Coulter

Select Standing Committee on Finance and Government Services Room 224, Parliament Buildings Victoria, BC V8V 1X4 Attention: Mr. Bob D'Eith, MLA and Chair

Dear Committee Members:

RE: Budget 2022 Consultations

Maple Ridge – Pitt Meadows School District No. 42 meets the learning needs of approximately 15,000 students of all ages in Maple Ridge and Pitt Meadows, and is defined by its determination to keep student learning and growth at the heart of all its decisions.

We wish to express our support for the submissions you received from the BC School Trustees Association, other boards of education, and our education partners. We also support the standing committee's previous recommendations that education funding fully address the increased costs faced by school districts throughout the province year over year.

Process for Determining Ministry of Education Budget Needs

Previously, this Board has suggested there is a need for government to work more closely with local boards of education through the BCSTA, the BC Association of School Business Officials, and the BC School Superintendents Association to build an education budget from the ground up that truly reflects the needs of the system. In 2018, the independent Funding Model Review Panel recommended to government that:

The Ministry should identify net cost pressures and new program expenditures and, as part of the annual provincial budgeting process, bring them forward to Treasury Board for consideration when the total quantum of public education funding is being set. (Recommendation 18)

We hope that your committee will reinforce this recommendation with government by recommending its implementation as part of the regular budget building process.

The Ministry should identify net cost pressures and new program expenditures and, as part of the annual provincial budgeting process, bring them forward to Treasury Board for consideration when the total quantum of public education funding is being set.

Ending Indigenous-Specific Racism and Discrimination

In November 2019, the provincial government passed the *Declaration on the Rights of Indigenous Peoples Act* (Declaration Act) into law. The *Declaration Act* establishes the UN Declaration as the province's framework for reconciliation, as called for by the TRC's Calls to Action. On June 11, 2021, the B.C. government released its Draft Action Plan relating to the implementation of the *Declaration on the Rights of Indigenous Peoples Act* ("DRIPA"). We are asking that the committee recommend the allocation of additional funding to the Ministry of Education to support the education related actions identified under the "Ending Indigenous-specific racism and discrimination" section of the action plan:

"Develop and implement an anti-Indigenous racism and discrimination strategy in the K-12 system to address the "racism of low expectations" reported by the Auditor General in 2015, including formally exploring how to implement a mandatory course or bundle of credits related to First Peoples as part of graduation requirements in B.C. (Ministry of Education)"

Additional funding to the Ministry of Education to support the education related actions identified under the Ending Indigenous-specific racism and discrimination section of the action plan:

"Develop and implement an anti-Indigenous racism and discrimination strategy in the K-12 system to address the "racism of low expectations" reported by the Auditor General in 2015, including formally exploring how to implement a mandatory course or bundle of credits related to First Peoples as part of graduation requirements in B.C. (Ministry of Education)"

Increased Costs of K-12 Education

The impact of COVID-19 on K-12 education, students, staff, school district budgets and operations will be felt for many years to come.

In 2022, school districts will continue to face significant financial impacts related to COVID-19. These impacts will consist of increased ventilation costs, increased sanitation and custodial costs, reduced international education tuition revenue, increased substitute staff costs, increased facilities maintenance, as well as increased technology costs. The provincial government will have to make allowances in the 2022 budget to address the ongoing increased costs of K-12 education.

To mitigate impact of the COVID-19 pandemic on vulnerable families, our school district worked with community partners to provide nutritious meals to students in our care. We see this as a continuing need in our community and we are asking that the committee recommend the implementation of a universal meals program funded by the federal and provincial governments.

The need for enhanced mental health supports for staff and students has also been highlighted by the pandemic. The Integrated Child and Youth teams model is starting to be piloted in a few school districts in the province and we are asking that the committee recommend the ongoing funding of Integrated Child and Youth teams in all school districts.

We appreciate the decision made as part of Budget 2021 to provide free transit to children under the age of 12. We would like to see this commitment expanded to ensure that all students have access to the necessary transportation services to and from school regardless of where they reside in the province. We are asking that the committee recommend the funding of transportation to and from school either by public transit or school district operated transportation.

Additional funding to the Ministry of Education to support:

- increased ventilation costs, increased sanitation and custodial costs, reduced international education tuition revenue, increased substitute staff costs, increased facilities maintenance, as well as increased technology costs
- the implementation of a universal meals program funded by the federal and provincial governments
- Integrated Child and Youth teams in all school districts
- transportation to and from school either by public transit or school district operated transportation

Capital Investments

In 2018, the provincial government unveiled the CleanBC plan - a pathway to achieve the province's legislated climate targets of reducing greenhouse gas (GHG) emissions by 40% by the year 2030, based on 2007 levels.

This plan includes a goal for cleaner public-sector buildings. The strategy outlined in the plan includes new schools built in B.C. achieving high levels of environmental performance, and making the existing stock of buildings cleaner, smarter, and more energy efficient by taking advantage of the latest proven technologies.

In order to achieve the GHG emission reduction goal set by the province, significant investments need to be made in retrofitting existing schools. We are asking that the committee recommend the allocation of additional capital funds in the 2022 budget directed at supporting the necessary school retrofit projects.

We recognize the significant investment this government has already made related to capital infrastructure; we recommend that this investment be continued and where possible increased in the future. In particular, we would like to see an increased investment towards major renovations for existing facilities, new schools and administrative buildings.

For too long school districts have not received adequate funding. The deferred maintenance costs continue to accumulate while the condition of our schools continues to deteriorate. Similarly, when facilities are seismically upgraded, the province should also allocate funds for completing the upgrade of these aging facilities. Not completing necessary facility renovations at the time of seismic upgrading is extremely inefficient and will add significantly to the overall cost to taxpayers if they are completed separately. We are asking the committee to recommend that government seriously consider funding all

needed and related renovations required in older school facilities at the same time seismic upgrades are being completed.

The current capital funding model does not include funding for the administrative or maintenance facilities required to support the delivery of educational services in school districts. This means that in order to build new facilities or renovate existing facilities, school districts have to generate local capital by selling unused properties or direct operating allocations towards such capital investments. We are asking the committee to recommend government start funding all school district capital needs, including schools, administrative and maintenance buildings.

Additional capital budget allocations to the Ministry of Education to support:

- retrofit of school district facilities to achieve CleanBC GHG emission reduction goals
- all needed and related renovations required in older school facilities at the same time seismic upgrades are being completed
- all school district capital needs, including schools, administrative and maintenance buildings

We look forward to contributing in any way we can to the further discussion of these matters and thank you for your attention.

Sincerely,

forleen Carreras, Chairperson

Dear Minister Whiteside,

Re: Funding Collective Agreements

School District No. 52 (Prince Rupert) has just finished a school year where the district faced some significant financial challenges. Those challenges included significant budget cuts in both the 2020-2021 Amended Annual Budget, and in the 2021-2022 Annual Budget. While the targeted funding received to address the COVID-19 pandemic was greatly appreciated, there is one specific concern with the funding model which we wish to address in this letter.

Our district's concern is with the funding of collective agreements. Districts have always been promised that the cost of collective agreements will be "fully funded". The method by which the Ministry is distributing this funding does not, however, live up to this promise.

The funding for collective agreements is distributed to districts on the basis of student fte. Our district saw a significant decline in student enrolment in September 2020 as a result of the pandemic. This decline in student enrolment resulted in a loss of funding to the district of approximately \$150,000. Staffing levels, however, were not reduced. As a result, the actual costs of the collective agreement were not fully funded for our district.

In our view, one possible solution to this issue would be to base the funding for the cost of collective agreements on employee fte rather than student fte. We hope that this suggestion will be considered as the Ministry works toward the final implementation of the recommendations of the Funding Review Panel.

Yours sincerely, School District No. 52 (Prince Rupert)

Dear Minister Whiteside,

Re: Funding Independent Schools

At our meeting on September 14, 2021, the Board of Education passed the following motion:

"That the Chair write a letter to the Minister of Education in opposition to taxpayer funding of private/independent schools in BC."

The Preamble to the School Act states:

It is the goal of a democratic society to ensure that all its members receive an education that enables them to become literate, personally fulfilled and publicly useful, thereby increasing the strength and contributions to the health and stability of that society; and

the purpose of the British Columbia school system is to enable all learners to become literate, to develop their individual potential and to acquire the knowledge, skills and attitudes needed to contribute to a healthy, democratic and pluralistic society and a prosperous and sustainable economy.

It is the view of our Board that the public education system is the best way to achieve these goals. In our view, private schools often promote worldviews that are not pluralistic, and their students often have limited exposure to people of backgrounds different from their own.

With respect to funding, I am now entering my fourth year as a trustee. Every budget we have debated has led to heartbreaking cuts to services needed by our students. While we remain hopeful that the new funding model will provide us with resources that can restore these services, in the meantime our students are not receiving every benefit they deserve. This is especially true in a remote community like Prince Rupert.

There is only one private school in Prince Rupert. Yet here, as in other parts of the Province, parents choose the private school because they perceive there is a lack of services available in the public system.

It is well documented that the average funding per student in British Columbia is below the National average. It is, therefore, frustrating to see public funds used to support private schools. We implore you to change government policy towards independent schools to align with the policies in Ontario and the maritime Provinces, where there is no funding for private schools. Shifting these dollars back into the public system will provide a much-needed boost to our district's finances.

Yours sincerely, School District No. 52 (Prince Rupert)

Re. Rural subsidy request for Cortes Island students

Dear Minister Whiteside:

Campbell River School District 72 reflects the diversity of our province. It includes schools in the city of Campbell River, the remote village of Sayward 75 km to the north, and three rural schools on nearby islands, including Cortes Island.

Cortes Island School has been the hub of community and learning on the island for many years. Children attend kindergarten through grade 9 on the island. At this time, students and their parents must decide whether the next three years of secondary education will be home schooling, distance learning, or attending secondary school in Campbell River. Most students beginning secondary school decide to leave Cortes Island for greater opportunities in their education.

Cortes Island is two ferry rides away from Campbell River. An attempt to commute would mean a minimum of four hours travel daily, but the ferry schedule does not permit students to arrive in time for school.

Recognizing the extra considerations and challenges faced by rural and remote schools, the Ministry of Education provides a rural subsidy grant for Cortes Island students. This grant is applicable when the students are in school on Cortes, but not when they need to leave school to further their education in a bricks and mortar school in Campbell River.

For at least 20 years, the Campbell River School Board has provided a subsidy to Cortes families who have a child attending secondary school in the city. This subsidy, for the 20 years, has remained at \$350 per month per student. Now, at a time when there are more costs incurred for accommodation, there is less money available. The students board individually with a local family, or several students live together in a city home with one or more Cortes parents.

In our role as advocates for students, the Campbell River Board of Education appeals to the Ministry of Education to consider providing adequate funding to subsidize the extra costs faced by students when they leave their island home to attend high school in Campbell River. Any financial consideration would be most helpful, and certainly most appreciated. If further information would be helpful, please contact our Superintendent Jeremy Morrow, Secretary Treasurer Kevin Patrick, or Board Chair John Kerr.

Sincerely,

Jøhn Kerr Chair

Re. Provincial Safe Return to School fund for 2021/22

Dear Premier Horgan:

As you are aware, school districts around British Columbia are working hard to mitigate COVID-19 in our schools. Currently, a more contagious variant of the virus is circulating and causing a fourth wave and children under the age of 12 are more vulnerable as there is no vaccine available for this age group.

Last year at this time, your government provided school districts with additional funding to help keep schools safe. School District 72 received \$462,607 as part of this much appreciated and needed funding.

School District 72 (Campbell River) used these funds wisely to:

- Provide additional cleaning for all classrooms, worksites and buses
- Purchase PPE including masks, face shields and gloves
- Purchase additional cleaning and sanitizing supplies
- Upgrade ventilation systems

Unfortunately, this year your government has not provided similar funding which will make our COVID-19 mitigation efforts much more difficult. We have allocated \$170,000 from our unrestricted surplus, but this in no way will be able to make up for the lack of a COVID grant this year.

On behalf of the Board of Education for Campbell River, I respectfully ask that you review funding to school districts and offer us more financial support to mitigate COVID-19 in our schools and keep our staff and students safe.

Sincerely,

Re: SCHOOL DISTRICT STATEMENT OF Date: October 20, 2021

FINANCIAL INFORMATION (SOFI) (Public Board Meeting)

Decision

BACKGROUND/RATIONALE:

Attached is a copy of the Statement of Financial Information Report for the Board of Education of School District No. 42 (Maple Ridge - Pitt Meadows) for the year ended June 30, 2021.

In accordance with the Financial Information Act (the "Act"), each school board is required to prepare a report of financial information for each fiscal year. The Act, together with the related regulation and directive, prescribes the information that is required to be included in the report.

The major schedules included in the report are as follows:

- a Schedule of Remuneration and Expenses that lists all payments made to trustees and to those employees with remuneration exceeding \$75,000; and
- a Schedule of Suppliers of Goods and Services that lists total payments made to suppliers in excess of \$25,000.

Section 6 of the Financial Information Regulation defines remuneration to include any form of salary, wage, taxable benefit, payment into trust or any form of income deferral paid by the Board to an employee but does not include anything payable under a severance agreement. Remuneration for individual employees can include payouts for vacation, gratuity and compensatory time not taken, in addition to regular salary. Remuneration also includes taxable benefits for auto allowances for employees who regularly use their personal vehicle for school district business. Remuneration does not include payments made to third parties on behalf of an employee.

Expenses are defined to include travel expenses, memberships, tuition, relocation, vehicle leases, registration fees and similar amounts paid directly to an employee, or to a third party on behalf of an employee, and which have not been included in 'remuneration'. The amounts reported do not reflect payments subsequently reimbursed by an employee.

Payments made for the provision of goods and services include all payments made from operating, special purpose and capital funds for the supply of goods and services. Payments, or deductions in funding, made by other entities on behalf of the Maple Ridge – Pitt Meadows School District (e.g. Next Generation Network expenditures and the School Protection Program premiums) are not included.

A significant portion of the supplier payments represents contributions to pension and employee benefit plans and contractors for capital projects. Payments for both employer and employee contributions to employee benefit plans are included.

RECOMMENDATION:

THAT the Board approve the School District Statement of Financial Information for the fiscal year ended June 30, 2021.

MANAGEMENT REPORT

Version: 6771-6025-4043

Management's Responsibility for the Financial Statements.

The accompanying financial statements of School District No. 42 (Maple Ridge-Pitt Meadows) have been prepared by management in accordance with the accounting requirements of Section 23.1 of the Budget Transparency and Accountability Act of British Columbia, supplemented by Regulations 257/2010 and 198/2011 issued by the Province of British Columbia Treasury Board, and the integrity and objectivity of these statements are management's responsibility. Management is also responsible for all of the notes to the financial statements and schedules, and for ensuring that this information is consistent, where appropriate, with the information contained in the financial statements.

The preparation of financial statements necessarily involves the use of estimates based on management's judgment particularly when transactions affecting the current accounting period cannot be finalized with certainty until future periods.

Management is also responsible for implementing and maintaining a system of internal controls to provide reasonable assurance that assets are safeguarded, transactions are properly authorized and reliable financial information is produced.

The Board of Education of School District No. 42 (Maple Ridge-Pitt Meadows) (called the "Board") is responsible for ensuring that management fulfills its responsibilities for financial reporting and internal control and exercises these responsibilities through the Board. The Board reviews internal financial statements on a quarterly basis and externally audited financial statements yearly.

The external auditors, KPMG LLP, conduct an independent examination, in accordance with Canadian generally accepted auditing standards, and express their opinion on the financial statements. The external auditors have full and free access to financial management of School District No. 42 (Maple Ridge-Pitt Meadows) and meet when required. The accompanying Independent Auditors' Report outlines their responsibilities, the scope of their examination and their opinion on the School District's financial statements.

INDEPENDENT AUDITORS' REPORT

To the Board of Education of School District No. 42 (Maple Ridge-Pitt Meadows), and To the Minister of Education, Province of British Columbia

Opinion

We have audited the financial statements of School District No. 42 (Maple Ridge-Pitt Meadows), (the "Entity"), which comprise:

- the statement of financial position as at June 30, 2021
- the statement of operations for the year then ended
- the statement of remeasurement gains and losses for the year then ended
- the statement of changes in net debt for the year then ended
- the statement of cash flows for the year then ended
- and notes to the financial statements, including a summary of significant accounting policies

(Hereinafter referred to as the "financial statements").

In our opinion, the accompanying financial statements of the Entity as at and for the year ended June 30, 2021 are prepared, in all material respects, in accordance with the financial reporting provisions of Section 23.1 of the Budget Transparency and Accountability Act of the Province of British Columbia.

Basis for Opinion

We conducted our audit in accordance with Canadian generally accepted auditing standards. Our responsibilities under those standards are further described in the "Auditors' Responsibilities for the Audit of the Financial Statements" section of our auditors' report.

We are independent of the Entity in accordance with the ethical requirements that are relevant to our audit of the financial statements in Canada and we have fulfilled our other ethical responsibilities in accordance with these requirements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Emphasis of Matter – Financial Reporting Framework

We draw attention to note 2 to the financial statements which describes the applicable financial reporting framework and the significant differences between the financial reporting framework and Canadian public sector accounting standards.

Our opinion is not modified in respect of this matter.

Other Matter - Comparative Information

The financial statements for the year ended June 30, 2020 were audited by another auditor who expressed an unmodified opinion on those financial statements on September 23, 2020.

Other Information

Management is responsible for the other information. Other information comprises:

- Information, other than the financial statements and auditors' report thereon, included in the Financial Statement Discussion and Analysis document
- Unaudited Schedules 1-4 attached to the audited financial statements

Our opinion on the financial statements does not cover the other information and we do not and will not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

We obtained the information, other than the financial statements and auditors' report thereon, included in the Financial Statement Discussion and Analysis document and the unaudited schedules 1-4 attached to the audited financial statements as at the date of this auditors' report. If, based on the work we have performed on this other information, we conclude that there is a material misstatement of this other information, we are required to report that fact in the auditors' report.

We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation of the financial statements in accordance with the financial reporting provisions of Section 23.1 of the Budget and Transparency and Accountability Act of the Province of British Columbia and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Entity's ability to continue as a going concern, disclosing as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Entity or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Entity's financial reporting process.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion.

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian generally accepted auditing standards will always detect a material misstatement when it exists.

Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the financial statements.

As part of an audit in accordance with Canadian generally accepted auditing standards, we exercise professional judgment and maintain professional skepticism throughout the audit.

We also:

 Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion.

The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit
 procedures that are appropriate in the circumstances, but not for the purpose of
 expressing an opinion on the effectiveness of the Entity's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Entity's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Entity to cease to continue as a going concern.
- Communicate with those charged with governance regarding, among other matters, the
 planned scope and timing of the audit and significant audit findings, including any
 significant deficiencies in internal control that we identify during our audit.

NOTE 1 AUTHORITY AND PURPOSE

The School District, established on April 12, 1946, operates under authority of the School Act of British Columbia as a corporation under the name of "The Board of Education of School District No. 42 (Maple Ridge – Pitt Meadows)", and operates as "School District No. 42 (Maple Ridge – Pitt Meadows)." A board of education ("Board") elected for a four-year term governs the School District. The School District provides educational programs to students enrolled in schools in the School District and is principally funded by the Province of British Columbia through the Ministry of Education. The School District is exempt from federal and provincial corporate income taxes.

The COVID-19 outbreak was declared a pandemic by the World Health Organization in March 2020 and has had a significant financial, market and social dislocating impact worldwide. Under direction of the Provincial Health Officer, all schools in the School District suspended in-class instruction in March 2020 and the School District remained open to continue to support students and families in a variety of ways. Parents were given the choice to send their children back to school on a gradual and part-time basis beginning June 1, 2020 and full-time beginning September 1, 2020 with new health and safety guidelines. The ongoing impact of the pandemic presents uncertainty over future cash flows, may have a significant impact on future operations including decreases in revenue, impairment of receivables, reduction in investment income, increased custodial costs and delays in completing capital project work. As the situation is dynamic and the ultimate duration and magnitude of the impact are not known, an estimate of the future financial effect on the School District is not practicable at this time.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the School District are prepared by management in accordance with the basis of accounting described below. Significant accounting policies of the School District are as follows:

a) Basis of Accounting

These financial statements have been prepared in accordance with Section 23.1 of the *Budget Transparency and Accountability Act of the Province of British Columbia*. This Section requires that the financial statements be prepared in accordance with Canadian public sector accounting standards except in regard to the accounting for government transfers as set out in Notes 2(g) and 2(l). In November 2011, Treasury Board provided a directive through Restricted Contributions Regulation 198/2011 providing direction for the reporting of restricted contributions whether they are received or receivable by the School District before or after this regulation was in effect. As noted in notes 2(g) and 2(l), Section 23.1 of the *Budget Transparency and Accountability Act* and its related regulations require the School District to recognize government transfers for the acquisition of capital assets into revenue on the same basis as the related amortization expense. As these transfers do not contain stipulations that create a liability, Canadian public sector accounting standards would require these grants to be fully recognized into revenue.

b) Financial Instruments

A contract establishing a financial instrument creates, at its inception, rights and obligations to receive or deliver economic benefits. The financial assets and financial liabilities portray these rights and obligations in the financial statements. The School District recognizes a financial instrument when it becomes a party to a financial instrument contract.

b) Financial Instruments (Continued)

Financial instruments consist of cash and cash equivalents, accounts receivable, portfolio investments, accounts payable, accrued liabilities and other liabilities. Except for portfolio investments in equity instruments quoted in an active market, or items designated by management that are recorded at fair value, all financial assets and liabilities are recorded at cost or amortized cost and the associated transaction costs are added to the carrying value of these investments upon initial recognition. Transaction costs are incremental costs directly attributable to the acquisition or issue of a financial asset or a financial liability. Unrealized gains and losses from changes in the fair value of financial instruments are recognized in the Statement of Remeasurement Gains and Losses. Upon settlement, the cumulative gain or loss is reclassified from the Statement of Remeasurement Gains and Losses and recognized in the Statement of Operations. Interest and dividends attributable to financial instruments are reported in the Statement of Operations.

For financial instruments measured using amortized cost, the effective interest rate method is used to determine interest revenue or expense. Unless otherwise noted, it is management's opinion that the School District is not exposed to significant interest, currency or credit risks arising from these financial instruments. The fair values of these financial instruments approximate their carrying value, unless otherwise noted.

All financial assets measured at amortized cost are tested annually for impairment. When financial assets are impaired, impairment losses are recorded in the Statement of Operations. A write-down of a portfolio investment to reflect a loss in value is not reversed for a subsequent increase in value.

c) Cash and Cash Equivalents

Cash and cash equivalents include cash in the bank and funds held with the Ministry in the Central Deposit Program that are readily convertible to known amounts of cash and that are subject to an insignificant risk of change in value. Cash equivalents are generally highly liquid, with a maturity of three months or less at acquisition and are held for the purpose of meeting short-term cash commitments rather than for investing.

d) Accounts Receivable

Accounts receivable are measured at amortized cost and shown net of any allowance for doubtful accounts.

e) Portfolio Investments

The School District has investments in term deposits, equity instruments with no maturity and bonds, which have a maturity of greater than 3 months at the time of acquisition. Term deposits and bonds not quoted in an active market are reported at cost or amortized cost. Portfolio investments in equity instruments that are quoted in an active market are recorded at fair value and the associated transaction costs are expensed upon initial recognition. The change in the fair value is recognized in the Statement of Remeasurement Gains and Losses as a remeasurement gain or loss until the portfolio investments are realized on disposal. Upon disposal, any accumulated remeasurement gains or losses associated with the portfolio investments are reclassified to the Statement of Operations.

f) Unearned Revenue

Unearned revenue includes tuition fees received for courses to be delivered in future periods and receipt of proceeds for services to be delivered in a future period. Revenue will be recognized in that future period when the services are provided.

g) Deferred Revenue and Deferred Capital Revenue

Deferred revenue includes contributions received with stipulations that meet the description of restricted contributions in the Restricted Contributions Regulation 198/2011 issued by Treasury Board. When restrictions are met, deferred revenue is recognized as revenue in the fiscal year in a manner consistent with the circumstances and evidence used to support the initial recognition of the contributions received as a liability as detailed in Note 2(I). Funding received for the acquisition of depreciable tangible capital assets is recorded as deferred capital revenue and amortized over the life of the asset acquired as revenue in the Statement of Operations. This accounting treatment is not consistent with the requirements of Canadian public sector accounting standards which require that government transfers be recognized as revenue when approved by the transferor and eligibility criteria have been met, unless the transfer contains a stipulation that creates a liability, in which case the transfer is recognized as revenue over the period that the liability is extinguished.

h) Employee Future Benefits

i) Post-employment benefits

The School District provides certain post-employment benefits including vested and non-vested benefits for certain employees pursuant to contracts and union agreements. The School District accrues its obligations and related costs including both vested and non-vested benefits under employee future benefit plans. Benefits include vested sick leave, accumulating non-vested sick leave, early retirement, retirement/severance, and death benefits. The benefits cost is actuarially determined using the projected unit credit method pro-rated on service and using management's best estimate of expected salary escalation, termination rates, retirement rates and mortality. The discount rate used to measure obligations is based on the estimated cost of borrowing. The cumulative unrecognized actuarial gains and losses are amortized over the expected average remaining service lifetime (EARSL) of active employees covered under the plan. The most recent valuation of the obligation was performed at March 31, 2019 and projected to March 31, 2022. The next valuation will be performed at March 31, 2022 for use at June 30, 2022. For the purposes of determining the financial position of the plans and the employee future benefit costs, a measurement date of March 31 was adopted for all periods subsequent to July 1, 2004.

ii) Pension Plans

The School District and its employees make contributions to the Teachers' Pension Plan and Municipal Pension Plan. The plans are multi-employer plans where assets and obligations are not separated. The costs are expensed as incurred.

i) Tangible Capital Assets

Tangible capital assets acquired or constructed are recorded at cost which includes amounts that are directly related to the acquisition, design, construction, development, improvement or betterment of the assets. Cost also includes overhead directly attributable to construction as well as interest costs that are directly attributable to the acquisition or construction of the asset.

Donated tangible capital assets are recorded at their fair market value on the date of donation, except in circumstances where fair value cannot be reasonably determined, which are then recognized at nominal value. Transfers of tangible capital assets from related parties are recorded at carrying value.

Work-in-progress is recorded as an acquisition to the applicable asset class at substantial completion. Tangible capital assets are written down to residual value when conditions indicate they no longer contribute to the ability of the School District to provide services or when the value of future economic benefits associated with the sites and buildings are less than their net book value. The write-downs are accounted for as expenses in the Statement of Operations.

Buildings that are demolished or destroyed are written-off. Works of art, historic assets and other intangible assets are not recorded as assets in these financial statements.

The cost, less residual value, of tangible capital assets (excluding sites), is amortized on a straight-line basis over the estimated useful life of the asset. It is management's responsibility to determine the appropriate useful lives for tangible capital assets. These useful lives are reviewed on a regular basis or if significant events initiate the need to revise. Estimated useful lives are as follows:

Buildings40 yearsFurniture & Equipment10 yearsVehicles10 yearsComputer Software5 yearsComputer Hardware5 years

j) Prepaid Expenses

Memberships and dues, software licenses, dental premium holidays, property taxes, utilities, maintenance agreements and other payments paid in advance are included as prepaid expense. Prepaid expenses are stated at acquisition cost and are expensed over the periods expected to benefit from it.

k) Internally Restricted Reserves

The Board of Education is responsible for ensuring the School District is protected financially from extraordinary circumstances that would negatively impact school district operations and the education of students. To discharge this responsibility, the Board has established a contingency reserve from available operating surplus, which will be used to mitigate any negative impact such circumstances might cause.

By Board policy a contingency reserve of at least 1% and not exceeding 3% of budgeted operating expenditures shall be maintained (\$1,565,162 to \$4,695,487). The current balance of \$2,848,669 (\$2,238,669 local capital and \$610,000 operating) equates to 1.82% of budgeted operating expenditures.

I) Revenue Recognition

All revenues are recorded on an accrual basis in the period in which the transactions or events occurred that gave rise to the revenues and when the amounts are considered to be collectible and can be reasonably estimated. Contributions received or where eligibility criteria have been met are recognized as revenue except where the contribution meets the criteria for deferral as described below. Eligibility criteria are the criteria that the School District has to meet in order to receive the contributions including authorization by the transferring government.

For contributions subject to a legislative or contractual stipulation or restriction as to their use, revenue is recognized as follows:

- Non-capital contributions for specific purposes are recorded as deferred revenue and recognized as revenue in the year related expenses are incurred;
- Contributions restricted for site acquisitions are recorded as revenue when the sites are purchased; and
- Contributions restricted for tangible capital assets acquisitions other than sites are recorded as deferred capital revenue and amortized as revenue over the useful life of the related assets once spent.

Donated tangible capital assets other than sites are recorded at fair market value and amortized over the useful life of the assets. Donated sites are recorded as revenue at fair market value when received or receivable.

The accounting treatment for restricted contributions is not consistent with the requirements of Canadian public sector accounting standards which require that government transfers be recognized as revenue when approved by the transferor and eligibility criteria have been met unless the transfer contains a stipulation that meets the criteria for liability recognition in which case the transfer is recognized as revenue over the period that the liability is extinguished. All other revenues are recognized in the period in which the transactions or events occurred that gave rise to the revenues.

I) Revenue Recognition (Continued)

Revenue related to fees or services received in advance of the fee being earned or the service is performed is deferred and recognized when the fee is earned, or service being performed.

Investment income is reported in the period earned. When required by the funding party or related Act, investment income earned on deferred revenue is included in the deferred revenue balance until spent.

m) Expenses

Expenses are reported on an accrual basis. The cost of all goods consumed, and services received during the year is expensed.

Categories of Salaries

- Principals, Vice-Principals, and Directors of Instruction employed under an administrative officer contract are categorized as Principals and Vice-Principals.
- Superintendents, Secretary-Treasurers, Trustees and other employees excluded from union contracts are categorized as Other Professionals.

Allocation of Costs

- Operating expenses are reported by function, program, and object. Whenever possible, expenses are
 determined by actual identification. Additional costs pertaining to specific instructional programs, such as
 special and indigenous education, are allocated to these programs. All other costs are allocated to related
 programs.
- Actual salaries of personnel assigned to two or more functions or programs are allocated based on the
 time spent in each function and program. School-based clerical salaries are allocated to school
 administration and partially to other programs to which they may be assigned. Principals and VicePrincipals salaries are allocated to school administration and may be partially allocated to other programs
 to recognize their other responsibilities.
- Employee benefits and allowances are allocated to the same programs, and in the same proportions, as the individual's salary.
- Supplies and services are allocated based on actual program identification.

n) Liability for Contaminated Sites

Contaminated sites are a result of contamination being introduced into air, soil, water or sediment of a chemical, organic or radioactive material or live organism that exceeds an environmental standard. The liability is recorded net of any expected recoveries. A liability for remediation of contaminated sites is recognized when a site is not in productive use and the following criteria are met:

- An environmental standard exists;
- Contamination exceeds the environmental standard;
- The School District is directly responsible or accepts responsibility for the contamination;
- It is expected that future economic benefits will be given up; and
- A reasonable estimate of the amount can be made.

The liability is recognized as management's estimate of the cost of post-remediation including operation, maintenance and monitoring that are an integral part of the remediation strategy for a contaminated site.

o) Measurement Uncertainty

Preparation of financial statements in accordance with the basis of accounting described in Note 2(a) requires management to make estimates and assumptions that impact reported amounts of assets and liabilities at the date of the financial statements and revenues and expenses during the reporting periods. Significant areas requiring the use of management estimates relate to estimated employee future benefits. Actual results could differ from those estimates.

p) Future Changes in Accounting Policies

PS 3280 Asset Retirement Obligations issued August 2018 establishes standards for recognition, measurement, presentation, and disclosure of legal obligations associated with the retirement of tangible capital assets and is effective July 1, 2022. A liability will be recognized when, as at the financial reporting date:

- There is a legal obligation to incur retirement costs in relation to a tangible capital asset;
- The past transaction or event giving rise to the liability has occurred;
- It is expected that future economic benefits will be given up; and
- A reasonable estimate of the amount can be made.

Liabilities are recognized for statutory, contractual, or legal obligations associated with the retirement of tangible capital assets when those obligations result from the acquisition, construction, development or normal operation of the assets. The obligations are measured initially at fair value, determined using present value methodology, and the resulting costs capitalized into the carrying amount of the related tangible capital asset. In subsequent periods, the liability is adjusted for accretion and any changes in the amount or timing of the underlying future cash flows. The capitalized asset retirement cost is amortized on the same basis as the related asset and accretion expense is included in the Statement of Operations. A modified retroactive application has been recommended by Government. Management is in the process of assessing the impact of adopting this standard on the School District's financial results.

PS 3400 Revenue issued November 2018 establishes standards on how to account for and report on revenue and is effective July 1, 2023. Specifically, it differentiates between revenue arising from transactions that include performance obligations, referred to as "exchange transactions", and transactions that do not have performance obligations, referred to as "non-exchange transactions".

p) Future Changes in Accounting Policies (Continued)

Revenue from transactions with performance obligations should be recognized when (or as) the School District satisfies a performance obligation by providing the promised goods or services to a payor.

Revenue from transactions with no performance obligations should be recognized when a school district:

- has the authority to claim or retain an inflow of economic resources; and
- identifies a past transaction or event that gives rise to an asset.

This standard may be applied retroactively or prospectively. Management is in the process of assessing the impact of adopting this standard on the School District's financial results.

NOTE 9 EMPLOYEE FUTURE BENEFITS

Benefits include vested sick leave, accumulating non-vested sick leave, early retirement, retirement/severance, vacation, overtime and death benefits. Funding is provided when the benefits are paid and accordingly, there are no plan assets. Although no plan assets are uniquely identified, the School District provides for the payment of these benefits when they become due.

NOTE 12 EMPLOYEE PENSION PLANS

The School District and its employees contribute to the Teachers' Pension Plan and Municipal Pension Plan (jointly trusteed pension plans). The boards of trustees for these plans, representing plan members and employers, are responsible for administering the pension plans, including investing assets and administering benefits. The plans are multi-employer defined benefit pension plans. Basic pension benefits are based on a formula. As at December 31, 2020, the Teachers' Pension Plan has about 49,000 active members and approximately 40,000 retired members. As of December 31, 2020, the Municipal Pension Plan has about 220,000 active members, including approximately 28,000 from school districts.

Every three years, an actuarial valuation is performed to assess the financial position of the plans and adequacy of plan funding. The actuary determines an appropriate combined employer and member contribution rate to fund the plans. The actuary's calculated contribution rate is based on the entry-age normal cost method, which produces the long-term rate of member and employer contributions sufficient to provide benefits for average future entrants to the plans. This rate may be adjusted for the amortization of any actuarial funding surplus and will be adjusted for the amortization of any unfunded actuarial liability.

The most recent actuarial valuation of the Teachers' Pension Plan as at December 31, 2017, indicated a \$1,656 million surplus for basic pension benefits on a going concern basis.

The most recent actuarial valuation for the Municipal Pension Plan as at December 31, 2018, indicated a \$2,866 million funding surplus for basic pension benefits on a going concern basis.

The School District paid \$13,405,647 for employer contributions to the plans for the year ended June 30, 2021 (2020: \$12,710,116)

The next valuation for the Teachers' Pension Plan will be as at December 31, 2020, with results available in the last quarter of 2021. The next valuation for the Municipal Pension Plan will be as at December 31, 2021, with results available in 2022.

Employers participating in the plans record their pension expense as the amount of employer contributions made during the fiscal year (defined contribution pension plan accounting). This is because the plans record accrued liabilities and accrued assets for each plan in aggregate, resulting in no consistent and reliable basis for allocating the obligation, assets and cost to individual employers participating in the plans.

NOTE 13 RELATED PARTY TRANSACTIONS

The School District is related through common ownership to all Province of British Columbia ministries, agencies, school districts, health authorities, colleges, universities, and crown corporations. Transactions with these entities, unless disclosed separately, are considered to be in the normal course of operations and are recorded at the exchange amount.

NOTE 14 BUDGET FIGURES

Budget figures included in the financial statements were approved by the Board through the adoption of the amended annual budget on February 17, 2021. As the 2020/21 Amended Annual Budget is used for comparative purposes a reconciliation between the 2020/21 Annual and the 2020/21 Amended Annual Budgets is provided.

NOTE 15 CONTINGENCIES

In the normal course of business, lawsuits and claims have been brought against the School District. The School District defends against these lawsuits and claims. Management has made provisions for any unexpected liabilities and believes that the ultimate results of any pending legal proceeding will not have a material effect on the financial position of the School District.

NOTE 16 ACCUMULATED SURPLUS

The operating fund accounts for the School District's operating grants and other operating revenues. Legislation requires that the School District present a balanced budget for the operating fund, whereby budgeted expenditures do not exceed the total of budgeted revenue plus any surplus in the operating fund carried forward from the previous year. The operating fund also contains a contingency reserve for unanticipated future operating expenditures.

NOTE 18 ECONOMIC DEPENDENCE

The operations of the School District are dependent on continued funding from the Ministry of Education and various governmental agencies to carry out its programs. These financial statements have been prepared on a going concern basis.

NOTE 19 RISK MANAGEMENT

The School District has exposure to the following risks from its use of financial instruments: credit risk, market risk and liquidity risk. The Board ensures that the School District has identified its risks and ensures that management monitors and controls them.

a) Credit risk:

Credit risk is the risk of financial loss if a customer or counterparty to a financial instrument fails to meet its contractual obligations. Such risks arise principally from certain financial assets held consisting of cash, amounts receivable and investments.

The School District is exposed to credit risk in the event of non-performance by a borrower. This risk is mitigated as most amounts receivable are due from the Province or local government and are considered low risk.

It is management's opinion that the School District is not exposed to significant credit risk associated with its cash deposits and investments as they are placed in the Central Deposit Program with the Province and in recognized British Columbia institutions. The School District invests in various financial instruments including equity funds, bond funds certificates and term deposits to reduce the concentration of credit risk.

b) Market risk:

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk is comprised of currency risk and interest rate risk.

Currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in the foreign exchange rates. It is management's opinion that the School District is not exposed to significant currency risk, as amounts held and purchases made in foreign currency are insignificant.

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in the market interest rates. The School District is exposed to interest rate risk through its investments. It is management's opinion that the School District is not exposed to significant interest rate risk as they invest solely in the Province's Central Deposit Program, guaranteed investment certificates, equity funds and term deposits that have a maturity date of no more than 1 year.

c) Liquidity risk:

Liquidity risk is the risk that the School District will not be able to meet its financial obligations as they become due. The School District manages liquidity risk by continually monitoring actual and forecasted cash flows from operations and anticipated investing activities to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the School District's reputation.

Risk Management and insurance services for all School Districts in British Columbia are provided by the Risk Management Branch of the Ministry of Finance.

NOTE 23 RECAST OF COMPARATIVE FIGURES

During the year, the School District determined that an immaterial adjustment was required to correct the balance of tangible capital assets, accounts receivable (due from Province – Ministry of Education) and deferred capital revenue in its comparative figures. This adjustment resulted in a decrease of \$337,031 to the tangible capital assets, increase of \$136,469 to the accounts receivable and increase of \$129,646 to the deferred capital revenue balances at June 30, 2020 and July 1, 2020. There was a decrease of \$330,208 in the surplus for the year ending June 30, 2020.

SCHOOL DISTRICT STATEMENT OF FINANCIAL INFORMATION (SOFI)

SCHOOL DISTRICT NO. 42 (MAPLE RIDGE - PITT MEADOWS)

FISCAL YEAR ENDED JUNE 30, 2021

EXPLANATORY NOTES

For the Schedule of Remuneration and Expenses, reconciling items for remuneration include the following:

- The financial statements are prepared on an accrual basis, whereas the remuneration and expenses included in the SOFI are reported on a cash basis.
- Remuneration for individual employees includes payouts for vacation and compensatory time not taken in addition to regular salary and taxable benefits for auto allowances for employees who regularly use their personal vehicle for school district business and flex benefit credits. Remuneration does not include payments made to third parties on behalf of an employee.
- Salary and benefit amounts recovered from third parties are included in remuneration for SOFI purposes but are reported net of the recovered amount in the financial statements.
- All expenses for conferences, training, business meetings, parking and travel paid by the district on behalf of the employee are reported, even those that were subsequently reimbursed to the employer. Expenses are not included if subsequently reimbursed by the employee.
- Expenses paid in respect of employees include 100% of the GST/PST paid, whereas the expenditures in the financial statements are shown net of the GST rebate.

For the Schedule of Payments for the Provision of Goods & Services, reconciling items include the following:

- The amounts reported are payments to suppliers; the financial statements include a year-end accrual.
- The list of payments to suppliers include 100% of the GST/PST paid, whereas the expenditures in the financial statements are shown net of the GST rebate.
- Amounts paid by recovery from Ministry of Education operating grants for School Protection Plan Insurance, Employment Practices Liability Program, Next Generation Network, MyEd BC, and Capital Asset Management System are included in Services and Supplies expenditures in the financial statements, whereas they are not included in this schedule.
- Payments to suppliers may be reported in the financial statements as Prepaid Expenses, Tangible Capital Assets, or Services and Supplies, as appropriate.
- The Schedules of Payments for Goods and Services may include expenditures which are wholly or partially recovered or reimbursed from other organizations, thereby reducing the district's operating expenditures in the financial statements.

Re: **POLICY REVIEW UPDATE** Date: October 20, 2021

(Public Board Meeting)

Information

BACKGROUND/RATIONALE:

The Board Policy Development Committee has developed a work plan for 2018 to 2022 with a goal of reviewing all existing board policies over the next four years.

On October 6, 2021 the Board Policy Development Committee met, reviewed and is presenting the following draft policy and procedure to the Board for information:

- Procedure 4203.1: Budget Process (Attachment A)
- Policy 4204: Accumulated Surplus (Attachment B)

Input from local First Nations, Metis Community, urban Indigenous organizations, partner groups and the public is now invited on Policy 4204: Accumulated Surplus. After receiving input, the Committee will have another opportunity to review the policy before it is again presented to the Board for approval on December 8, 2021.

RECOMMENDATION:

THAT the Board receive Procedure 4203.1: Budget Process for information.

And Further;

THAT the Board receive Policy 4204: Accumulated Surplus for information and continuation with the consultation process.

SD 42 PROCEDURE: 4203.1

BUDGET PROCESS

Annual budgets shall be developed based on instructions received from the Ministry of Education. At the beginning of each budget development cycle, the Secretary Treasurer in collaboration with the Superintendent shall prepare and present to the Board for approval a budget development plan or budget process.

The annual budget process for the development of the original budget is aimed at ensuring transparency and accountability in the development of the school district budget. The process shall include a proposed schedule of meetings dedicated to sharing the Board's budget information with partner groups and the public as well as receiving budget balancing proposals and feedback on proposed budget balancing options.

The annual budget process for the development of original (preliminary) budgets shall include the following:

- Proposed preliminary budget including base budget estimates and detailed proposed budget balancing proposals presentation
- Opportunities for <u>local First Nations</u>, <u>Metis Community</u>, <u>urban Indigenous</u> <u>organizations</u>, partner groups and the public to provide input in budget development
- Preliminary budget including detailed budget balancing proposals presentation

Board approved preliminary and amended budget documents shall be posted on the school district website.

CONTINGENCY RESERVE

Philosophy

ACCUMULATED SURPLUS

Policy statement

The School Act requires the boards of education (board) to prepare a balanced annual budget. Estimated spending in the annual budget must not exceed estimated revenue plus accumulated operating surplus (operating surplus). Operating surplus, with consistent rules and guidelines in place, enables the board to engage in long-term planning, mitigate financial risk and support consistent service to all students.

Purpose

The purpose of the Accumulated Surplus Policy is to ensure a clear, transparent understanding of the reasonable accumulation and planned use of operating surplus, contingency reserve and local capital surplus.

Authority

The Board authorizes the Secretary Treasurer to develop and implement all procedures required for the implementation and management of the Board's accumulated operating surplus policy.

Appropriated Surplus

A board achieves an operating surplus when its annual revenue exceeds annual expenses. An operating surplus means that the board has financial resources that can be used to operate schools for a period longer than one year. The ability to carry forward unspent funds enables the board to effectively plan for future years

Internally Restricted Operating Surplus

The Board may set aside a portion of operating surplus for items that are linked to multi-year strategic objectives and future operational needs. Restrictions are made only for defined operational needs with defined timelines, including services or purchases that are directly related to a boards' strategic plan, operational needs and enhanced educational outcomes for students.

To increase transparency, every appropriation requires a board motion. Approval of appropriations related to confidential matters or land, legal or personnel matters shall be considered in a closed board meeting.

Contingency Reserve (Unrestricted Operating Surplus or Local Capital Surplus)

The Board of Education is responsible for ensuring the district is protected financially from extraordinary circumstances which would negatively impact school district operations and the education of students. To discharge this responsibility, the Board will establish a contingency

SD42 Policy 4204: Contingency Reserve Public Agenda Page 111 reserve from available operating surplus which would be used to mitigate any negative impact such circumstances might cause.

Authority

The Board authorizes the Superintendent and the Secretary Treasurer to develop and implement all procedures required for the establishment and management of the Board's contingency reserve.

Guiding Principles

The Board shall maintain a contingency reserve of at least 1% of operating expenditures and not exceeding 3% of operating expenditures.

Use of Appropriated Surplus and Contingency Reserve

The Board may approve the use of <u>theappropriated surplus or</u> contingency reserve under the following circumstances:

- The elimination of any deficit arising at the end of a fiscal year of operations;
- The funding of new cost pressures in a fiscal year that were not known at the time of budget development;
- Extraordinary unknown utilities cost pressures;
- The payment of severances (wages and benefits) upon termination of employment;
- The settlement of any legal action that is not covered by insurance;
- Initial one-time cost outlays for new education programs;
- Coverage for disaster recovery expenditures;
- Extraordinary expenses incurred to ensure business continuity;
- Replacement of equipment essential to the continuation of safe operations of school district facilities:
- Coverage for unexpected additional major capital project costs not funded by the province;
- To assist in balancing future years budgets.

In recognizing that the use of the contingency reserve represents a one-time source of funding, the Board will incorporate into its future budget planning processes, strategies to re establish the contingency reserve. Such strategies may be implemented over a period of two years.

Inter-Fund Transfers

Inter-Fund Transfers are funds transferred from one fund to another (e.g. between Operating Fund and Capital Fund). Inter-fund transfers require must be made through board motion.

Approval of interfund transfers related to confidential matters or land, legal or personnel matters shall be considered in a closed board meeting.

Re: **YOUTH PLANNING TABLE** Date: October 20, 2021

(Public Board Meeting)

Information

Date of meeting: September 29, 2021

Items discussed:

Youth Planning Table Work Plan Update

Goal 1: Inclusive Community Spaces and Activities (City of Maple Ridge)

- Trial hours extension for Greg Moore Youth Centre (GMYC).
- Service delivery planning is being created for the new Albion Community Centre (ACC) soft launch expected in December/January.

Goal 2: Community Engagement (uPlan)

uPlan year in review- The following is a list of items the uPlan youth created and executed last year. The Holiday Light Tour provided a self-guided map of residences that deck out their houses for the holidays. The community wide scavenger hunt encouraged folks to get outside and offered a lot of interactive activities. Grad walk 2021 partnered with many community agencies and local businesses to celebrate grads during the pandemic. uPlan partnered with the seniors' network to create valentines' cards to give to seniors in the community. A collaboration with Youth Action Committee (Foundry's YAC) for a movie night in the Park. For youth week a virtual art gallery was created for youth and garnered over 100 submissions.

Goal 3: Wellness and Mental Health

• Foundry reported that 20 youth housing units will be deployed for community use with the Ministry of Children and Family Development in the Corner Stone project. Monthly drop-in 'socials' are happening on a daily basis at the Foundry. Foundry's virtual and in-person services continue to be offered.

Goal 4: Transitioning to Adulthood

Work BC is working to create hiring fairs. New program at Foundry - Foundry Works! - a supported employment and education program for youth. Discussion on the lack of post-secondary opportunities in the community.

COMMUNITY ACTION TABLE (CAT) (Public Board Meeting)

Information

Date of meeting: October 8, 2021

Items Discussed:

1. Review of Terms of Reference - reviewed and discussed Purpose, Roles & Responsibilities and Guiding Principles.

2. Looking Back – recognizing and acknowledging the many accomplishments of the past four years. There have been many events and presentations that have raised the awareness in our community. Coordination of services has been beneficial. Progress has been made in the past four years around reducing stigma.

3. Looking Forward

- brainstormed and prioritized ideas under the four areas of Education, Advocacy, Outreach and Communication and listed on scale of high to low funding requirements. Lots of ideas around continuing with community presenters and workshops, safe injection sites, safe supply, continue with STORM van, more education of public, more training, work with policing and fire departments, mobile outreach vehicle and expand peer group.
- funding of the committee will continue. Looking for someone to step up as a coordinator as Kim is moving into a new position.

Items referred to the Board of Education:

1. Consider partnering/coordinating with the Ridge Meadows Overdose Community Action table on presenters for both the community and schools.

RECREATION AND CULTURE

ADVISORY COMMITTEE

Information

(Public Board Meeting)

Date of meeting: September 29, 2021

Items discussed:

1. Staff reported that the upcoming Department work plan would reflect the committee's last discussion and include:

- supporting the development of the PRC Master Plan;
- developing methods to increase sponsorship opportunities to enhance programs;
- supporting truth and reconciliation by collaborating and connecting with indigenous communities;
- seeking opportunities to bring neighborhoods together through programs, engagement and purpose.
- 2. Staff presented an update on the sports network which now involves 30 local sport organizations. Dave Speers is the staff liaison to the group and outlined the kind of work being done i.e. coaching workshops on inclusion. He further mentioned the group reviewed the facility allocation policy prior to it being brought to the committee. Workshops on incorporation were also provided to assist organizations who have not done so to become registered societies.
- 3. Committee members were encouraged to invite citizens they feel would be appropriate to apply for two current at large vacancies on the committee. Trustee Murray suggested those recruiting may want to encourage applications from local youth.
- 4. Three policies were reviewed and endorsed by the committee:

- · Park Donations and Gifts.
- Fees and Charges new rates were proposed and endorsed although it was identified that Council would likely not adopt the new fee structure until after the pandemic.
- Park and Facility Allocation.
- 5. Staff provided liaison reports and talked specifically about a new neighbourhood park design consultation which is beginning in Albion. They mentioned they have also received a federal grant for a new playground facility at Albion Park (close to Samuel Robertson Technical). It was good to see some new playground development happening to serve the Albion area. Staff also spoke about the Parks, Recreation and Cultural Plan timing anticipating the consultation processes will happen early in the new year. The need to collaborate with the school district "facilities of the future" planning was noted.
- 6. Sub committees were established to work with staff on the four work plan areas. Trustees will be sitting on the Master Plan Sub committee and the subcommittee addressing the need for stronger collaboration with local first nation communities.
- 7. Councillor Svendsen shared some information about pedestrian improvements in a few areas of the city.
- 8. It was suggested that school district staff connect with staff at the City of Maple Ridge to ensure the PRC Master Plan and the School District Facilities Plan are developed each with the other in mind, especially with respect to joint facility and program development opportunities.

1. Updates from Community Outreach Agencies:

V. Kipps - Community Services

- completion of the new Cornerstone Landing affordable housing project has been delayed. Tentative opening will be mid-November. The office space for Social Services programs offered by the Maple Ridge-Pitt Meadows Community Services has set up a temporary space.
- Homelessness Awareness Week looking for a drop off centre in Pitt Meadows for people to drop off socks. – Ridge Meadows Seniors Society

M. Perrretta - Ridge Meadows Seniors Society

- participation rates have returned to normal due to increase of comfort levels with vaccination rates and vaccine passports.
- Pitt Meadows Seniors Food Bank started this month but the uptake is very slow
- Adult Cognitive Centre provides an adult day program run by a recreation therapist helps to provide caregivers some respite. Offered mondays in Pitt Meadows and thursdays in Maple Ridge.

H. Treleaven - Seniors Network

- new directory is complete and has been distributed
- virtual workshop for seniors with CRA representative regarding pensions and benefits
- overwhelmed with calls from seniors looking for housing. At least 6 calls in the last week alone.

B. Morgan - Manager of the Emergency Program, City of Pitt Meadows

- forest fire emergency has decreased this month but several fires ongoing in the province and there are still people that are misplaced from their homes.
- International Shake Out BC is scheduled for October 21 at 10:21 encouraging businesses and agencies to register.

- October 15 is the premier viewing at Meadowtown Cineplex of the video on "Emergency Preparedness for Everyone". It will be available on You Tube and the link will be posted on the City of Pitt Meadows website.
- COVID-19 report and concern expressed regarding hospital utilization rates.
- More people in the centre have been trained on giving naloxon.

2. Future Meetings:

Councillor O'Connell requested verbal feedback to take back to Pitt Meadows
City Council on the usefulness of the committee which began as a pilot project
one year ago. All agencies responded positively that the meetings have been
very useful as they provide necessary networking and sharing of information.
They would like the meetings to continue on a quarterly basis.
