Re: **SD 42 IT PLAN TO SUPPORT
LEARNING FOR TOMORROW**

Date: January 16, 2013
(Public Board Meeting)

Information

BACKGROUND/RATIONALE:

During the School District 42 Learning for Tomorrow forum which was held on November 16th, 2010, the importance of technology as an integral part of moving to a more 'personalized' and responsive educational approach was identified by all of the stakeholder groups and the Ministry of Education. Using this as an impetus, further input was collected and has been combined with the forum feedback to generate the SD 42 IT Plan to Support Learning for Tomorrow.

RECOMMENDATION:

THAT the Board receive the attached SD42 Technology Plan report for information.
