

## Winter 2021: United Way Schools Out Program

### UNITED WAY SCHOOLS OUT AFTER SCHOOL PROGRAM (K-GR. 7)

The Family Education and Support Center and The United Way are excited to bring you **Kids Helping Community** - a program that inspires children to look for ways they can act locally in their community.

Participating children will learn how they can address issues in their community and become part of the solution. They will explore the theme of local poverty, guided by Indigenous teachings of love, respect, courage, honesty, wisdom, humility, and truth.

Children will also have the opportunity to meaningfully contribute to their own school communities by identifying a school-based need and working together to help find solutions. Participants will come to understand the impact of their actions. All school projects will be child-led initiatives.
