

Password change instructions for users with No District-Supplied Device

1. Open any browser and type in <https://myaccount.microsoft.com/>
2. If prompted to login, login using `firstname_lastname@mrpm.sd42.ca`
3. Select "Change Password" from the displayed tiles.

4. Enter your old password and then enter your new password twice and click on submit and you have successfully changed your password.

A screenshot of the "Change password" form in a web browser. The address bar shows "https://account.activedirectory.windowsazure.com/ChangePassword.aspx". The form is titled "Change password" and includes a "User ID" field with the value "████████@mrpm.sd42.ca". Below this are three input fields: "Old password", "Create new password", and "Confirm new password". Each of these three input fields is highlighted with a red border. At the bottom of the form, there is a green "Submit" button and a "Cancel" link, both also highlighted with a red border.
